FOR IMMEDIATE RELEASE

## **CLEARVIEW INTELLIGENCE ATTAINS CERTIFIED PARTNER STATUS WITH NEDAP**

Over the past year Clearview Intelligence, working with Nedap Identification Systems, have successfully installed car park monitoring solutions in a number of UK retail and employee car parks. Ensuring parking spaces are found quickly and easily has a number of benefits including reducing congestion, enhancing customers overall experience of the facility, as well as providing increased utilisation of available space for the operator of a car park.

The recent installation of Clearview's Insight® Parking solution incorporating Nedap's SENSIT wireless parking sensor technology at the flagship Next PLC retail store in High Wycombe, Buckinghamshire and the National Grid employee car park in Warwick, has led to a close working relationship with Nedap. This working relationship and the professionalism of the projects delivered to-date has led to Clearview Intelligence being awarded Nedap's Certified Partner status for wireless vehicle detection.

Nick Lanigan, Managing Director of Clearview Intelligence said: “Attaining Certified Supplier status is a great way of validating our approach to serving this market and strengthens the very positive and forward thinking working relationship we have been able to foster with the team at Nedap. Utilising SENSIT technology as part of our Insight® Parking solution has enabled Clearview to create bespoke and industry leading solutions aimed at enhancing user experience and enabling operators to maximise utilisation of available spaces.”

Michiel Rijssemus, Business Development Manager NL, UK, IE and Africa for Nedap added “We are proud that Clearview Intelligence is the preferred partner for the Wireless Vehicle Detection System that Nedap offers. Clearview has the know-how and experience to offering a robust end-to-end solution in the field of Intelligent Transportation Systems and Smart Cities. With this integration of Nedap’s wireless parking sensors into the innovative solution of ClearView a more a reliable, robust and cost effective monitoring solution for on- and off street parking is offered”.
